## The Netherlands Publishes DAC6 Guidance

The Netherlands has published [guidance](#) concerning the Directive as regards mandatory automatic exchange of information in the field of taxation in relation to reportable cross-border arrangements, commonly referred to as “DAC6”.

Members States had until 31 December 2019 to implement the Directive into domestic legislation. Given that all arrangements initiated after 25 June 2018 that fall within the scope of the Directive are reportable, there have been increased calls for the Commission to issue technical guidance to provide more clarity for tax advisers in the course of transposition of the directive. In late 2019, CFE, together with the European Contact Group (ECG) and the European Group of International Accounting Networks and Associations (EGIAN), sent a joint letter to the European Commission and members of Working Party IV encouraging the Commission and the Member States to continue their efforts to provide more guidance and clarification in the process of implementing DAC6.

CFE will conduct a survey concerning the implementation and practical reporting requirements of implementing legislation in 2020.
